Teach General Music?

Pop Hits
Listening Guides

Teach traditional music concepts with current top 40s hits & popular movie themes

Pop Hits Listening Guides...

...an easy-to-use resource for music teachers!

By using the five '98-'99 subscription issues, you will help your students...

- learn musical terms and identify them in a song;
- hear how music "paints" the emotions of the texts through dynamics, rhythm, word associations;
- recognize the fundamentals of musical notation;
- figure out the "language" of musical expression and how it relates to their lives;
- recognize the distinctive sounds of instruments;
- follow musical concepts such as beat, meter, tempo and other related devices through an entire song;
- identify musical form by finding "introduction," "verse," "chorus," "bridge," "coda," etc.

Each issue includes suggestions for using **Pop Hits Listening Guides** to help meet MENC music content standards.

Hit songs are carefully chosen for classroom use.
We really do look for currently popular songs that are well constructed musically in addition to being attractive to students in grades 5-12. In each lesson, strengths of each song help lead your students through basic music processes you want them to know about—in an easy-to-follow, clear format.

THE GUIDES ALSO OFFER YOU...

Organization: Each issue is an easy-to-use packet of well crafted activity worksheets you and your students will enjoy.

Convenience: The **Guides** come to you every two months, ready to use right out of the box. Make copies for your students, and then listen to the enclosed recording.

Planning: Always includes teacher-only materials to help plan specific units.

Flexibility: Take the ideas in a segment and expand on them. Or adapt the ideas to suit your own teaching style.

Simplicity: Instructions are clear and free of jargon. Even substitute teachers can use the worksheets.

YOUR ANNUAL SUBSCRIPTION INCLUDES:

Pop Hits Listening Guides is a 5-issue subscription of teaching materials for music classes published September through April.

Each issue includes the **original commercial compact disc single or cassette tape** single of the featured popular song.

Pop Hits Listening Guides contains 6-8

reproducible activity worksheets, an easy-to-follow "Teacher Supplement" with an analysis of each song, and special "Answer Sheets." The "Line Number Chart" and "Note Sheet" features allow you and your students to see the exact placement of words and music (for grades 5-12).
